SAFE JOURNEY SEAT MOUNTS

The Safe Journey is a tamper resistant seat mount. You can upgrade your seat mount for those students that like to slip out of their securements. Drivers/Aides can feed the long shoulder straps through the upper D-rings of the vest and circle around to fasten to D-rings on the seat mount. As long as the straps are pulled tight, the passenger will find difficulty in removing the Safe Journey harness.

The Safe Journey seat mounts are color coded to match the vest.
