QUARTER FENDERS

Introducing the Betts Company quarter fenders and accessories. Material choices include carbon steel, stainless steel, aluminum, and poly. Universal design works with either left or right side installation. Mounting kits, top flaps, and premium clamps all available for the highest quality solution in the industry.

Features & Benefits

- Unhanded design for reduced inventory
- Premium AccuSeal clamps fasten tighter with less effort than the competition
- Standard, low and ultra-low mount designs maximize coverage regardless of ride height
- Quarter fenders come with mounting clamps, top flaps, and top flap hardware
- Custom images can be applied to top flaps for additional customization

Applications

All trucks using metal or poly quarter fenders.
