HIGH QUALITY HYDRAULIC TANKS

FOR HEAVY DUTY APPLICATIONS

Manufactured with a state of the art fusion process, and inspected with an HD internal scope, Bezares Hydraulic Tanks are sure to provide you with reliable operation. Each of the Bezares tanks are inspected to ensure that they contain less than .03% of contaminates and particulates. These tanks provide you with the flexibility of mounting upright or saddle. Available in aluminum and steel, and in sizes ranging from 15 to over 100 gallons.

Features & Benefits
• Tank mounting kits for upright and saddle arrangements available for all sizes. • Sight gauge option included on all tanks. • In-tank return filter option available upon request. • Tank material composition is primarily aluminum; steel under special order.
